

Capture with confidence.

With thousands of IP camera options to choose from, there's a Pelco™ by Schneider Electric™ IP camera suitable for every lighting condition, environment, and application imaginable. From fixed, entry-level cameras, to high-performance extreme environment pan/tilt/zoom (PTZ) systems, to thermal imaging, Pelco IP cameras allow you to capture important video data with confidence.

Thinking about IP? Think Pelco.

As an expert in the industry – with proven experience of more than 25 years – Pelco has a unique understanding of the needs of today’s video security and IT professionals and incorporates this knowledge into every product we produce. With an unmatched commitment to customer service and support, Pelco offers immediate availability of products, a no-questions-asked return policy, the ability to place special modification requests (SMRs), our Partner Advantage customer loyalty program, and an array of other tools, services, and support dedicated to growing your business and providing the highest level of user confidence, business value, and success.

From fixed and dome IP cameras and positioning systems, to video management solutions, to specialty thermal Imaging IP camera systems, and high-definition (HD) displays – and more – Pelco has what you need for all your video surveillance requirements.

Fixed IP cameras

Pelco offers high-quality HD IP network cameras perfect for most any indoor or outdoor fixed video surveillance application. From an affordable value range to professional performance and SureVision™-enhanced IP cameras, Pelco has what you need to get the job done.

Sarix Value Range IP cameras

The new Sarix™ Value Range of mini box and micro dome cameras are high-definition, cost-effective, IP network cameras perfect for most any indoor fixed video security application. The Sarix IL Series cameras produce high-quality color HD video, and the integrated, prefocused, fixed focal length lens makes sharp scene alignment and installation quick and easy. These excellent value cameras are just the first of a broad new line of Sarix fixed IP camera products to be released this year.

The mini box camera models offer unique mounting flexibility, and the micro dome models ship with quick snap-in ceiling mounts. Convenient network connectivity, Power over Ethernet (PoE) models, and a simple Web user interface make for easy plug-and-play finalization of settings and positioning adjustment.

Sarix means professional performance

Available in box, indoor, and outdoor dome models, the processing power behind Sarix cameras delivers outstanding HD images and advanced functionality. With features including built-in analytics and high-profile H.264 compression for optimized image quality and minimized bandwidth, Sarix is driving the future of camera technology. The Sarix IM Series sets the standard for megapixel and standard-definition (SD) performance in an integrated mini dome.

Coming fall 2013

Sarix Professional Range offers more choice, more value.

Features:

- Up to 5 MP resolution
- Box cameras, bullets, and indoor and environmental mini domes
- 30 ips at 1080p
- Infrared options available
- ABF/AF, auto zoom, varifocal lenses
- Compatible with Pelco and third-party video systems
- ONVIF Profile S conformant

Additional models coming in fall 2013:

- Sarix IXP Series box cameras
- Sarix IBP Series environmental bullet cameras
- Sarix IMP Series mini domes

Sarix enhanced with SureVision

Sarix cameras with SureVision combine wide dynamic range (WDR) along with low-light and anti-bloom capabilities into one highly intelligent technology. These powerful cameras automatically deliver the best possible image in the most complex lighting conditions. And, with new features allowing for ease of setup, convenient functions, and more control, Sarix with SureVision is the ideal solution for every possible environment and demand.

Coming fall 2013

Sarix Enhanced Range with industry-leading image quality and performance.

Features:

- Next generation SureVision
- Dual 1080p H.264 up to 30 ips
- Rugged reliability for mission critical sites
- Compatible with Pelco and third-party video systems
- ONVIF Profile S conformant

Additional models coming in fall 2013:

- Sarix IXE Series box cameras with SureVision
- Sarix IME Series mini domes with SureVision
- Sarix IMP Series mini domes

SureVision – for a higher quality image

When a single scene contains bright areas, shaded areas, and intense light, image quality has traditionally suffered. But not anymore. SureVision technology combines WDR, low-light, and anti-bloom capabilities, automatically delivering the best possible image in the most complex lighting conditions.

Without SureVision

With SureVision

IP positioning systems

With a wide range of options available, maximize your video security to protect people, property, and your bottom line with amazing HD video and remarkable control and responsiveness over an IP network. For trusted performance and reliability day or night, indoor or outdoor, make Pelco IP positioning systems a critical part of your site's security infrastructure.

Spectra HD 1080

Incorporating the award-winning Sarix imaging technology platform, Spectra™ HD 1080 is an all-digital system that delivers 2.0 megapixel resolution (1920x1080 at 30 ips), high-profile H.264 compression, built-in analytics, and much more. Featuring HD-optimized dome bubble technology, a revolutionary solid pendant design to eliminate vibration noise, 20X optical zoom, and precise 360-degree PTZ control, Spectra HD 1080 is setting the industry standard for high-definition image quality and video security performance.

Esprit SE IP

The Esprit™ SE IP integrated and pressurized PTZ camera systems are high-performance remote-positioning systems featuring an integrated camera and lens, PTZ unit, multi-protocol receiver, and Sarix-based H.264 encoder. Designed and built for continuous duty, Esprit SE IP offers dynamic remote-positioning capabilities and is capable of remaining completely operational in 90-mile-per-hour wind conditions.

Specialty IP cameras

For the most demanding video security applications, Pelco offers a variety of specialty IP camera systems specifically designed to deliver the highest-quality video in the harshest environments and lighting conditions.

ExSite IP Series

The ExSite™ Series now offers network-based, explosion-proof PTZ and fixed camera systems with integrated camera/lens/receiver for safe and efficient installation in hazardous locations. Featuring low-light technology, multiple compression formats, and both upright and inverted operation, ExSite IP provides the image quality, performance, and reliability you demand in the most challenging environments.

Sarix TI thermal imaging

Enhanced image quality, easy network integration, advanced built-in analytics, and unprecedented value. That's what you get when combining the latest thermal imaging technology with the industry-leading, all-digital design Sarix platform. Sarix TI puts thermal imaging within reach for any application. With cameras available in both fixed and pan/tilt models, Sarix TI is flexible enough to fit into any new or existing system.

Pelco IP VMS

With multiple platforms to choose from, there's a Pelco video management system (VMS) to meet your unique system requirements. From the flexibility of Digital Sentry™ for mainstream security applications, to the powerful scalability of Endura™ for mission-critical surveillance, to cloud-based video management solutions, Pelco IP VMS options provide a solid foundation from which you can securely and efficiently operate your entire video security landscape.

Hybrid video recorders (HVRs)

Pelco DX Series HVRs meet the demands of customers migrating to IP video while leveraging their existing analog video surveillance infrastructure. With support for eight to 32 analog cameras, plus eight IP megapixel cameras (DX4700HD/DX4800HD), and storage from 250 GB to 8 TB, these easy-to-use systems are ready to record out of the box.

Endura VMS

The Endura IP VMS offers the scalability, performance, and reliability required for mission-critical surveillance applications. Scalable to thousands of cameras, Endura is designed to fit a wide range of customer applications – including airports, casinos, and city surveillance – where unmatched fault tolerance and system integrity are mandatory.

Digital Sentry VMS

With full-featured DSNVs video management software, a robust DSSRV network video recorder, analog camera support via optional direct-attached or network video encoders, multisite monitoring, and support for third-party IP cameras, Digital Sentry is a flexible VMS for mainstream security applications.

Total accessories

Pelco offers the widest, most comprehensive range of video security accessories available anywhere to help you capture, manage, and display your critical video data.

- Complete range of high-resolution, large format LED-backlit displays
- Enclosures: indoor, environmental, specialized
- Lenses: fixed, varifocal, motorized
- Fiber optic transmission systems
- UTP transmission systems
- Power supply systems
- Video encoders and decoders
- PTZ systems, scanners
- Mounts and adaptors
- IR illumination
- Video conditioning
- Switchers, matrix systems, multiplexers
- Racks and consoles
- IP camera tool
- PoE power

Empowering customers with more options

Pelco is committed to empowering customers with a range of products and integration options that is unmatched in the industry.

Open systems and design

Pelco IP cameras and IP VMS systems are designed to easily integrate with the industry's leading manufacturers, including Genetec and Milestone. Our IP cameras seamlessly connect to Pelco IP and hybrid systems such as Endura, Digital Sentry, and DX Series hybrid video recorders. Pelco cameras also feature open architecture, conformant with ONVIF™ 1.02 and Profile S, for connectivity to third-party systems. Furthermore, Pelco offers an application programming interface (API) and software developer's kit (SDK) for interfacing with Pelco IP cameras. The extensive range of integration options offered by Pelco gives customers the choice they demand.

Partner First integration

With an industry-leading approach to open systems design and the development of strategic alliances and partnerships, Pelco truly understands the value that comes with working together to deliver fully integrated video security solutions. Our groundbreaking Partner First program marks a new level of openness as we work on a daily basis to

identify and bring to market additional features, capabilities, and solutions to our existing portfolio of video security solutions.

ONVIF

Support for ONVIF is a key part of being IP driven. Pelco is a full member of ONVIF, actively participating in multiple ONVIF working groups and committees.

Open and integrated

Pelco products are designed to easily integrate with the industry's leading manufacturers.
